My dear Ma:

I have little time in which to write what is called a letter, but will take this opportunity to enclose a photo of myself for you. Distinguished considering. You will doubtless note the appearance of that classic brow, that Websterian mouth, that Clay cut ear, that Calhoun nasal organs &c. - all of which I hope may please you, to say the least.

Your last report was far ahead of any one previous and from it I am led to believe that you will come out all right in June. I may come to Hamton to see you at that time but now it is very uncertain.

I'm well pleased with your improvement in painting and hope you will be able to give it much attention. We are all very well - Write often to your Loving Bro
